

**PACKAGED DECORATED FROZEN CONFECTION
AND METHOD OF MANUFACTURE**

Abstract

5 A packaged decorated composite frozen confection that includes an open-
ended shell made of a solid, fat-based composition and having a shell wall that
defines an interior volume for holding at least a portion of an ice confection
therein, the shell wall having a smooth outer surface; a decorative pattern forming
a portion of the smooth surface outer wall; a packaging sleeve for protecting all or
10 part of the outer surface of the shell; and a filling of a frozen confection at least in
the interior volume of the shell. Also, methods for producing such confections.
